1.) How to create the azure account and project

The image shows two screenshots of the Microsoft Azure portal. The top screenshot is the 'Welcome to Azure!' page, which offers options for users without a subscription: 'Start with an Azure free trial' (Get \$200 free credit), 'Azure and GitHub integration' (Learn how GitHub and Azure work together), and 'Azure for Students' (Get free software, Azure credit, or access Azure Dev Tools for Teaching). Below these are 'Azure services' (Create a resource, Azure DevOps organizations, Quickstart Center, Azure AI services, Kubernetes services, Virtual machines, App Services, Storage accounts, SQL databases, More services) and 'Resources' (Recent, Favorites). The bottom screenshot shows the 'Azure DevOps' page, featuring a banner about managing billing and subscriptions, and a large illustration of people working together to launch a rocket, symbolizing collaboration and speed. The text on the page reads: 'Azure DevOps Plan smarter, collaborate better, and ship faster with a set of modern dev services'. It also includes links for 'My Azure DevOps Organizations', 'Get started using Azure DevOps', 'Billing management for Azure DevOps', and 'Give feedback'.

Microsoft Azure

Welcome to Azure!

Don't have a subscription? Check out the following options.

Start with an Azure free trial
Get \$200 free credit toward Azure products and services, plus 12 months of popular free services.
[Start](#)

Azure and GitHub integration
Learn how GitHub and Azure work together to let you build and deploy apps.
[Explore](#) [Learn more >](#)

Azure for Students
Get free software, Azure credit, or access Azure Dev Tools for Teaching after you verify your academic status.
[Start](#)
